PROFESSIONAL SUMMARY

Frontend Engineer who builds responsive, scalable and user-friendly digital products with React, Next.js and TypeScript. Built Pinnacle Inc, a fintech paper-trading platform with a live portfolio dashboard and order desk backed by real market data, and shipped a production e-commerce storefront for a Nigerian fashion brand by translating a design reference into clean, functional interfaces. Works across the stack with Node.js, Express, APIs, PostgreSQL and MongoDB (a Node.js foundation that carries over to NestJS), using Git, GitHub and Docker day to day.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, React Native

Backend & APIs: Node.js, Express, API integration, PostgreSQL, MongoDB

Tools & Workflow: Git, GitHub, GitLab, Docker, Kubernetes, Postman, Claude Code

Additional: Python, Java, C, Rust, Solidity, Spring Boot, Kafka, pandas, NumPy, PyTorch, OpenCV

EXPERIENCE

Frontend & Backend Developer 2025 – Present

UNICCREATIONS | Lagos, Nigeria

- Built a responsive, high-fidelity e-commerce storefront for a Nigerian fashion brand, owning the product end to end from user interface to backend.
- Translated a provided design reference into clean, functional interfaces, keeping layout, typography, product cards, filters and navigation consistent across every page and screen size.
- Implemented the shop, custom-order and account flows end to end, connecting the front end to the backend without a separate designer or backend hire.

PROJECTS

Pinnacle Inc | Fintech Paper-Trading Platform 2025 – Present

React, Next.js, TypeScript, Node.js, PostgreSQL

- Built a fintech paper-trading platform with Next.js and TypeScript that gives African investors a $10,000 virtual balance to trade ETFs, stocks and Nasdaq-listed names risk-free.
- Implemented a live portfolio-equity dashboard tracking positions and account value against real market data.
- Built a full order desk integrating real market data through APIs, on a Node.js and PostgreSQL backend.

ProDesign Africa | Architecture & CAD Web App 2025 – Present

React, Next.js, TypeScript, Tailwind CSS, Node.js

- Built a 3D architecture/CAD web tool in Next.js and TypeScript for African professionals, with Nigerian plot standards and ARCON/LASDRI compliance built in.
- Implemented an interactive in-browser floor-plan editor, styled with Tailwind CSS, for producing scaled, compliant building drawings.

NairaX Signal Pro | Real-Time Crypto Signal Dashboard 2025 – Present

React, TypeScript, Node.js, PostgreSQL, Docker

- Built a signal platform that scans 340+ new coins per hour across Solana, BSC and Ethereum and scores each coin 0–100 across 7 signals.
- Delivered real-time alerts via a React web dashboard and a Telegram bot, with a free/premium tier model.

NewHope Hospital System 2025

React, Node.js, Express, MongoDB

- Built a hospital management system with a React front end and an Express/MongoDB backend for tracking patient appointments and cutting down paper trails.
- Implemented ward-sorting workflows that simplify coordination for hospital staff.

EDUCATION

University of Lagos (UNILAG) | Lagos, Nigeria Sept. 2026 – Present

Bachelor of Engineering, Petroleum Engineering

CERTIFICATIONS

JPMorgan Chase & Co. | Software Engineering Job Simulation (Forage) 2026
